

## GUIDELINES ON GIVING

As a participant of a short-term mission trip from Fellowship Bible Church you may be solicited for gifts by the local national employees of the mission while you are on the trip. Most organizations have policies against their employees asking for gifts from visiting mission teams. We ask that gifts NOT be given directly or indirectly to any of the local national staff of the mission organization. This would apply to the week in which your team is on site, but also at any point in the future.

The effects of making gifts can be damaging to the work of the mission and to our teams. Mission organizations disciple the staff they employ and strive to teach submission to authority, faithfulness and works unto the Lord all to the goal of encouraging a Godly culture change. Gift solicitation and gift giving can harm those efforts.

I agree to the above guidelines and will uphold them.
